

# LIPS MASTERCLASS

*by Dr. Natallia Romanowska*

**30-31 OCTOBER & 1 NOVEMBER 2026**

## AGENDA

**1**

### **FRIDAY 30-10-2026**

FROM ANATOMICAL SCIENCE TO CLINICAL PRACTICE:  
ADVANCED LIP ENHANCEMENT TECHNIQUES

*Structure: Lectures & Live Demonstrations*

**2**

### **SATURDAY 31-10-2026**

ADVANCED SOLUTIONS: CORRECTIONS, COMPLICATIONS  
& CASE MASTERY\*

*Structure: Lectures & Live demonstrations & Case Consilium*

**3**

### **SUNDAY 1-11-2026**

PRECISION IN PRACTICE: HANDS-ON SCULPTING LAB

*Structure: Lectures & Hands-on training on silicon models*

\*Case Consilium Discussion

Challenging case studies will be addressed in an interactive format.

Participants are invited to submit 1-2 lip-related cases with images or videos, brief description, and clinical questions to [klinikaromanowska@gmail.com](mailto:klinikaromanowska@gmail.com) at least 2 weeks prior to the course.

# ELITE LIP AUGMENTATION ACADEMY

1

**FRIDAY 16-1-2026**

FROM ANATOMICAL SCIENCE TO CLINICAL PRACTICE:  
ADVANCED LIP ENHANCEMENT TECHNIQUES

09:00-09:15	Welcome, objectives, course overview
09:15-10:15	Embryology, histology, and ultrasound anatomy of the lip
10:15-11:00	Cheiloscopy lines, surface anatomy, and assessment of lip capacity
11:00-11:15	Coffee break
11:15-12:00	Lip mucosa behaviour post-injection (cadaver video analysis)
12:00-13:00	Selecting the right hyaluronic acid for optimal results
13:00-14:00	Lunch
14:00-14:15	Injection movements: lifting, separative-volumetric, C-incision, deposit
14:15-14:30	Introduction to lip type classification & technique selection
14:30-15:30	Lecture & Live Demonstration: Thin, M-shaped, and Geisha lips
15:30-15:45	Coffee break
15:45-16:30	Lecture & Live Demonstration: Classic geometric approach (natural results)
16:30-17:15	Lecture & Live Demonstration: Pocketed/aged lips - 25 mm needle technique
17:15-18:00	Lecture: Cupid's bow lifting (two methods) & Live Demonstration: Russian Lips

# ELITE LIP AUGMENTATION ACADEMY

2

**SATURDAY 31-11-2026**

ADVANCED SOLUTIONS: CORRECTIONS, COMPLICATIONS  
& CASE MASTERY\*

09:00-09:15	Day 1 Recap & objectives
09:15-10:15	Avoiding unnatural results in lip enhancement
10:15-11:15	Lecture & Live Demo: Hyaluronidase for unsatisfactory results -total/partial
11:15-11:30	Coffee break
11:30-12:15	Hyaluronidase & HA in one procedure; "lip striping" - does it work?
12:15-13:00	Lip asymmetry: assessment and treatment planning using HA & botulinum toxin
13:00-14:00	Lunch
14:00-14:30	Live Demo: Lip asymmetry correction
14:30-15:45	Case Consilium Discussion (participant cases)
15:45-16:00	Coffee break
16:00-17:00	Complications: nodules, allergy, vascular compromise recognition & management

# ELITE LIP AUGMENTATION ACADEMY

3

**SUNDAY 1-11-2026**

PRECISION IN PRACTICE: HANDS-ON SCULPTING LAB

**GROUP 1**

9:00 - 13.00

**GROUP 2**

14.00 - 18.00

Artistic introduction to lip surface anatomy with modeline sculpting.

Choosing the correct needle size for improved precision.

Using a 25-mm needle for lip enhancement.

Accurately calculating the injected volume of hyaluronic acid.

Training of injection force.

Practicing injection movements: lifting, separative-volumetric, C-incision, deposit.

Cannula - yes or no for lip enhancement?

Practical exam: performing various lip enhancement techniques on silicone models.
